

The Idea Here

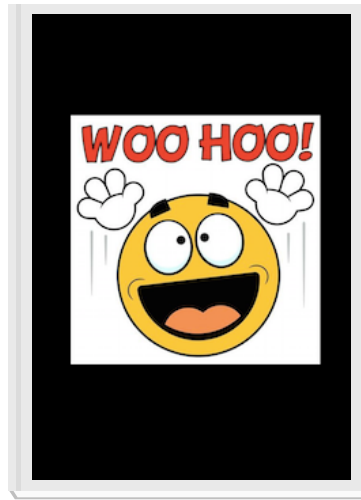

- Pages 2 and 3 : each column of pictures is a different emotion, with 3 pictures of each going down said column.
Page 2: (left to right) scared, excited, tired, sad, happy
Page 3: shy, silly, confused, loving, angry
- Page 4 has emojis of each emotion. Use these as labels, and the kids have to sort the pictures by emotion. (perhaps doing page 2 one day page 3 another or at different stations depending on age).
- Page 5 and 6 can be used to introduce emotions, as well as for a matching game

scared

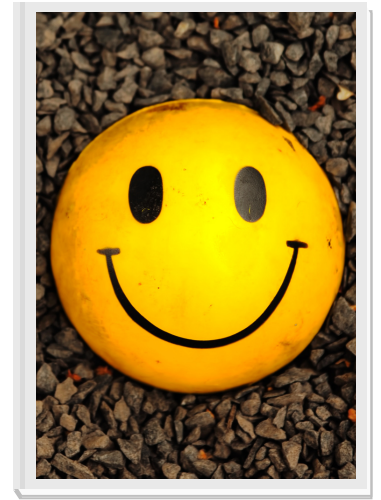

excited

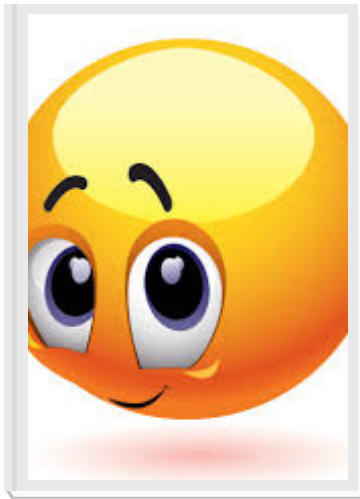

tired

sad

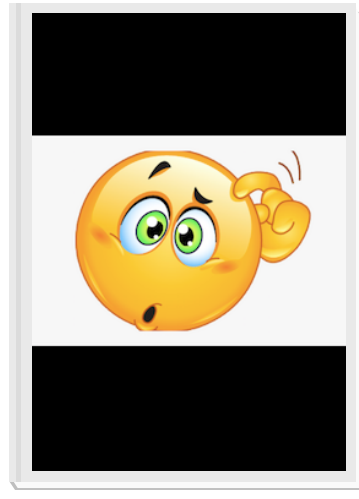

happy

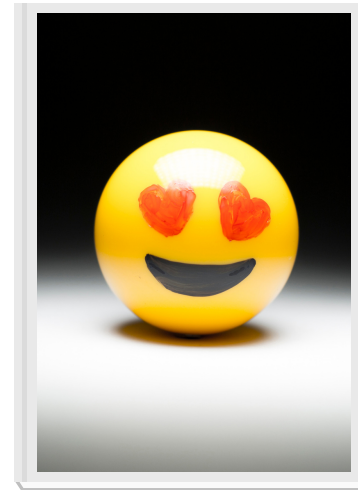

shy
